Unexpected Teachers: Channeling, Choice, and the Power of Thought

Our thoughts shape the matrix of our experiences, and by gathering here, we choose to deepen our awareness and expand our capacity for loving, conscious action. At ORI, we learn from teachers both physical and nonphysical, and from the wisdom we awaken in one another.

My own path was anything but planned. I was a writer, teacher, and mushroom farmer when a visit to Sunset Spiritualist Church in Wells, Kansas—intended as a simple week of curiosity—opened into years of training and spiritual development. This keynote shares that journey—how surrendering to unexpected guidance can transform everything.

Shiitake Mama - Oklahoma. *Shiitake channels messages from mushrooms and a collective consciousness. A lifetime as teacher, writer, actor and director made her the perfect channel for Madame Tremella (a type of mushroom), a fun fungus-channeling Romanian psychic. Shiitake is writing a book of messages from mushrooms, “Everything is Always Singing.”*

Manifesting the Healer Within

Mastering the art of coherent energy—Develop fundamental intuitive skills to identify and activate healing patterns while releasing non-coherent, destructive influences. Learn to direct your attention inward, to distinguish between states of alignment and disharmony. Through practical classroom exercises, we will explore an intuitive method that harmonizes your personal frequency with the rhythms of creation, grounding you to the earth and connecting you to your spirit. This completes a full circle of holistic healing and vitality through a circuit of love coherence.

Techniques Practiced in Class:

- Coherence Alignment — sensing and shifting your internal state from disharmony to energetic coherence
- Intuitive Scanning — identifying healing patterns and non-coherent influences within the body and field.
- Earth-Spirit Circuiting — grounding into earth energy while connecting upward to spirit to complete a full loop of love-based vitality.

Linda Eastburn - Missouri. Linda is a health intuitive, author, and instructor. She offers books, a line of courses, and intuitive sessions. She has lectured at universities and medical institutions across the country. Her remarkable experiences and intuitive perception have given her the insight of moving through healing crisis and difficult situations.

Linda will offer Private Intuitive Sessions during the Convention.

Moving up the Ladder of Levels of Consciousness

There is an improved level of “knowingness” as one moves up the ladder of consciousness. Experience working with subtle vibrational energies in various amazing ways to gain greater understanding of your true nature and increase the level of consciousness. The audience will test themselves as to their level of consciousness at the beginning and the end of the workshop (David Hawkins scale and that of Althea Gray). The outcome will be truly knowing who you are and the growth in your abilities. For the workshop, bring a pendulum.

Some Techniques we will practice in class:

- Personal wavelength testing
- Detecting and measuring subtle vibrational energies.
- Permanently copying any subtle energy into anything, including increasing the vibrational level of water into the multimillions.

Jerry Gin - California. Entrepreneur - Pharmaceutical, diagnostic, laboratory medicine, and biotechnology industries. Passionate interests - Consciousness, nature of reality. Chairman - Foundation for Mind-Being Research (<https://FMBR.org>). Author: The Seeker and The Teacher of Light and Science, Subtle Energies, and Spirituality. Shattered Paradigms: The Transformational Potential of Encounters with the Unknown (75-min. Workshop)

Are you an Experiencer or a “Super Experiencer”? In this class, Melinda will discuss these concepts and illustrate them and their effects with some of her own experiences of the anomalous and paranormal. Join Melinda to discover how paradigm shattering and sometimes terrifying experiences can, in hindsight, be transformational and beneficial.

Melinda Greer - Oklahoma. Melinda is a retired Pediatrician who resides in Oklahoma. Her life has been interrupted by mystical, paranormal, and bizarre experiences beginning in early childhood. These include UFO/UAP sightings, episodes of missing time, two NDE's, three Bigfoot/Sasquatch encounters, ghost/poltergeist activity, and Mystical/Noetic experiences. A search for answers in response to the many questions generated by these occurrences, has led her on a journey of exploration of consciousness, and transformation.

Intuition in Reverse: Counter-intuitive options for healing (75-min. Workshop)

Sometimes, part of healing is removing or clearing judgment and emotion from a person. Not so fast! What if we could use judgment and emotion as tools for healing? Then, after the job is done, we can decide whether to keep the tools, or discard them. It is often much quicker and easier to get to a state of mindfulness, hypnosis, meditation, or healing through fear or anger than through peace and (even) love. Learn how you can experience emotion and judgment as shortcuts instead of obstacles to healing.

3-Hour Post-Workshop: YOU GOTTA BE KIDDING! WHAT DOES HUMOR HAVE TO DO WITH HEALING?

Wouldn't life be funnier without conflict, pain, and doubt? Not really. Because humor is *based on* these things. Healing is focused on eliminating these "problems," but humor *uses* pain, and conflict to get laughs! Using what is already there: pain, conflict, etc., it is sometimes easier to get a healing than to get a laugh! To do this we use other elements of humor: Distance, detachment, perception, and perspective.

In this workshop, you won't (necessarily) learn how to tell a joke, but you will learn that you can move through the "negative" aspects of humor directly to the "positive" aspects. Like taking the direct route instead of a detour, you can move directly from pain to peace, conflict to conciliation, uncertainty to clarity, and contradiction to creativity. You will practice some new ideas, perspectives, and techniques.

You will also *experience* the benefits when all of this is combined **during a group healing**.

Each participant will also receive one follow-up 45 minute phone call to ask questions, and one world famous Resonance Tuner™ for their personal healing.

Alan Handelsman - Arizona. Working as a musician and hypnotherapist, Alan watched and learned from some of the finest comedians and healers around. Because he took life much more seriously, and his own stage fright and depression, he was able to take what he learned from all of them, and develop unique approaches to healing. After about 40 years of this, Alan can now laugh at how seriously he takes life, and how much more healing he has yet to experience.

In both of his presentations, Alan will help you achieve balance between opposite ideas, improve your ability to reconcile contradictory truths, heal the damage caused by inner conflicts, and open up new possibilities for healing yourself and others. While the two workshops are related, attending both is not necessary. Each one will stand on its own. Alan is known as much for his humor as for his healing. Come watch how he does both.

Alan will offer Private Sessions during the School.
